

Turkish Court of Accounts

Activity: Young Eurosaı Conference 2019

Date: 4-7 November 2019

Place: London, United Kingdom

Participant Countries: Eurosaı Members

Participant(s): Sedat KUŞGÖZOĞLU, Yeliz Deniz ÖZKAN SARIAYDIN

Summary: The fourth YES conference is fourth YES conference and it's vision is to host a conference that gave staff from supreme audit institutions (approximately 35 years old and below) the opportunity to share new ideas and solutions to the challenges facing supreme audit institutions today and in the future.

The theme of the fourth conference is "Relevance". There are vast amounts of data available, and the technologies to store, access and analyse these data are constantly developing. At the same time, social and political attitudes are shifting across Europe, and the world. These technological, social, and political shifts are not independent of one another. Each is intertwined and creating impact on individuals, communities, societies, businesses, and governments in unpredictable ways, both positive and negative.

To remain relevant in these changing landscapes, supreme audit institutions (SAIs) need to demonstrate the positive impact their work is having on the individuals, communities, societies, businesses, and governments they serve. If impact cannot be demonstrated, SAIs may no longer be perceived as relevant. If supreme audit institutions cease to be perceived as relevant, then they may cease to remain.
