Summary:

The idea of organising seminars developed by the ECOSAI Presidency and General Secretary. In this respect, the Seminar aims to share experience and knowledge on improvement and innovation of “Challenges to the existing Public-Sector Auditing Routines”

(ii) To identify good practices of improvement and innovation of audit process

(iii) To share experience of audit on preparedness for implementation of SDGs and discuss issues and challenges. In your response, you had expressed that you would contribute to the seminar. The call for presentations developed within this scope and the themes that it contains were shared with the ECOSAI Member SAIs, the presentation demands of the Member SAIs were evaluated, and a draft program was prepared. The draft program in question will be shared with you later on after the suggestions of the other parties taking part in the seminar are addressed.

At this point, I would like to invite two auditors or experts from your SAI of Uzbekistan to the technical seminar which is explained in detail in the attached Announcement and aims at increasing cooperation among the ECOSAI Members and promoting the joint activities to the international audit community. Scholars from Turkey and representatives from INTOSAI, EUROSAI and ASOSAI were invited to the seminar, as well.
